<b>ST. John's School, Jharkhand</b> <ul style="list-style-type: none"><li>AISSE (Class X)</li></ul>	<b>2018- 2019</b>

## Skills

C++ | C | HTML| CSS| JavaScript | NodeJS | React | MongoDB | Express | Data structure and Algorithm |

Machine Learning

## Projects

<b>Project Title: Online Food Restaurant website</b> Tech Stack: HTML, CSS, JavaScript <a href="#">GitHub Link</a> Created dynamic features such as <b>menu filtering, image sliders, interactive navigation, and form validations</b> using vanilla JavaScript. Designed intuitive <b>UI/UX layouts</b> to display restaurant details, menu sections, reservation forms, and customer testimonials. Integrated <b>smooth scrolling, animated transitions, and hover effects</b> to enhance visual appeal and user engagement.	<b>Sep'24</b>
<b>Project Title:Tours and Travels website</b> Tech Stack: HTML, CSS, JavaScript <a href="#">GitHub Link</a> Designed interactive <b>UI</b> elements like destination cards, booking forms, navigation bars, and image sliders to enhance user experience. Integrated <b>basic animations and hover effects</b> to make the website visually appealing. Focused on real-world user experience including <b>tour listings, booking forms, and contact section.</b>	<b>Jan'24</b>
<b>Project Title:Gaming website</b> Tech Stack: HTML, CSS, JavaScript <a href="#">GitHub Link</a> Engineered a fully responsive <b>UI using Flexbox, Grid, and media queries</b> , optimizing for all screen sizes. Enhanced user engagement by integrating <b>smooth animations, event-driven interactions, and real-time updates.</b>	<b>Oct'23</b>
<b>Project Title:Weather Forecast App</b> A weather forecast app or website will tell users about weather conditions based on their locations and time. A weather forecasting app will include various options, such as <b>checking wind speed, searching weather via zip code, viewing temperature</b> , and getting forecasts for the next 5-7 days.	<b>Feb'23</b>

## Academic and Extracurricular Achievements

- Accomplished 250+ DSA Challenges,demonstrating **high proficiency** and a **dedication to continuous learning**.
- Solved 200+ questions on GeeksforGeeks.
- Contributed** to various open-source organizations.

## Positions of Responsibility

- Head of content writing team** for "Seed" society of electrical department NITJ.
